INVESTOR DAGEN

SAFE HARBOR STATEMENT

Matters discussed in this release may constitute forward-looking statements. Forward-looking statements reflect our current views with respect to future events and financial performance and may include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and statements other than statements of historical facts. The words “believe,” “anticipate,” “intend,” “estimate,” “forecast,” “project,” “plan,” “potential,” “may,” “should,” “expect,” “pending” and similar expressions generally identify forward-looking statements.

The forward-looking statements in this release are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, management’s examination of historical operating trends, data contained in our records and other data available from third parties. Although the Company believes that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies that are difficult or impossible to predict and are beyond our control, the Company cannot guarantee that it will achieve or accomplish these expectations, beliefs or projections.

Important factors that, in our view, could cause actual results to differ materially from those discussed in the forward- looking statements include the strength of the world economy and currencies, changes in charter hire rates and vessel values, changes in demand for “ton miles” of oil carried by oil tankers, the effect of changes in OPEC’s petroleum production levels and worldwide oil consumption and storage, changes in demand that may affect attitudes of time charterers to scheduled and unscheduled dry-docking, changes in TORM’s operating expenses, including bunker prices, dry-docking and insurance costs, changes in the regulation of shipping operations, including requirements for double hull tankers or actions taken by regulatory authorities, potential liability from pending or future litigation, domestic and international political conditions, potential disruption of shipping routes due to accidents, political events or acts by terrorists.

In light of these risks and uncertainties, you should not place undue reliance on forward-looking statements contained in this release because they are statements about events that are not certain to occur as described or at all. These forward-looking statements are not guarantees of our future performance, and actual results and future developments may vary materially from those projected in the forward-looking statements.

Except to the extent required by applicable law or regulation, the Company undertakes no obligation to release publicly any revisions to these forward-looking statements to reflect events or circumstances after the date of this release or to reflect the occurrence of unanticipated events.

1 Fully integrated and transparent business model

2 Complex and volatile shipping niche with attractive fundamentals

3 Interesting key metrics

TORM AT A GLANCE

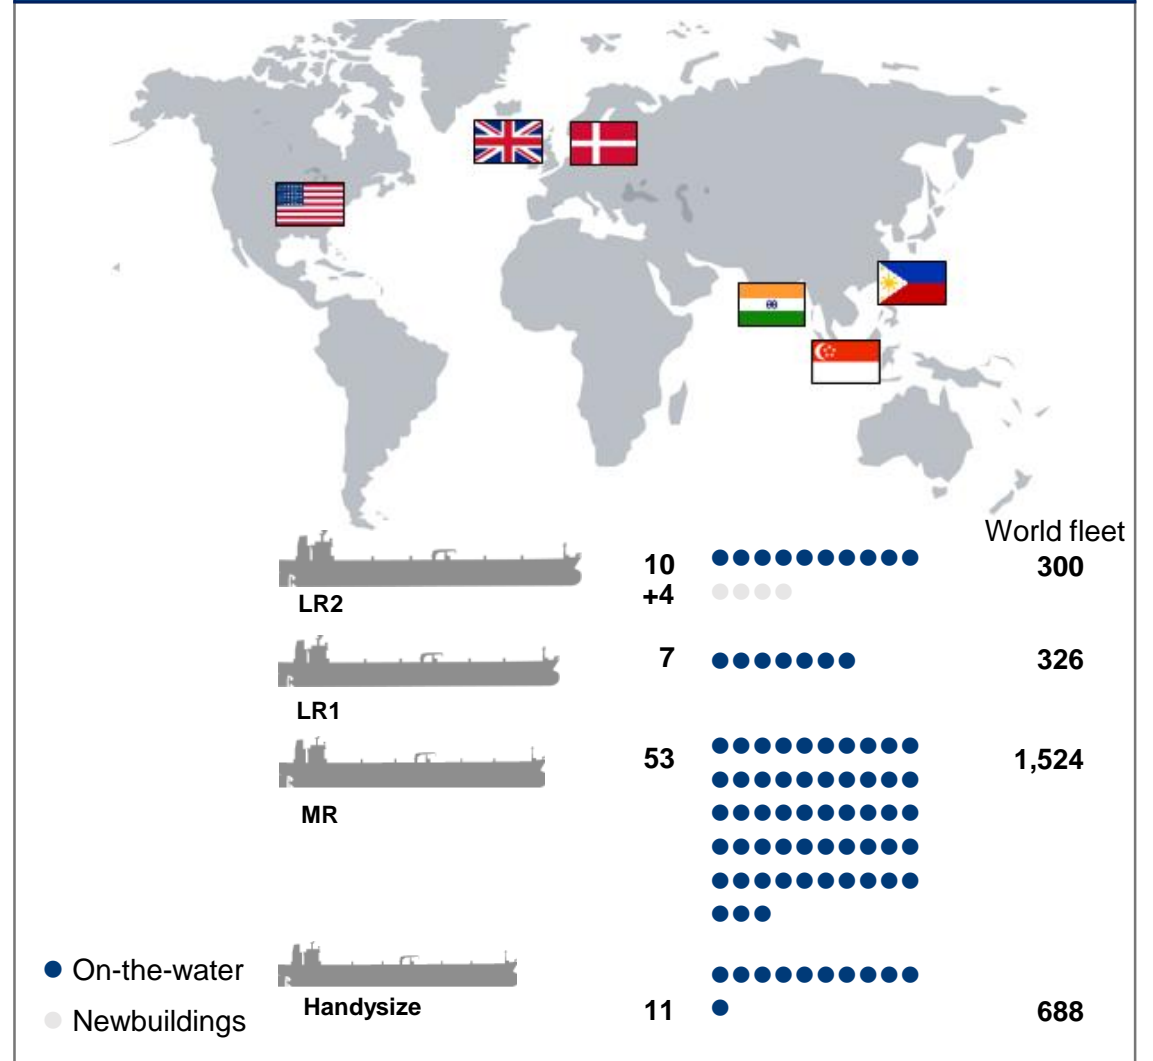

Key Facts

A world-leading pure product tanker company

- One of the largest owners and operators of product tankers in the world
- More than 125 years of track record
- Customers consist of major independent oil companies, state owned oil companies, oil traders and refiners
- 3,000 seafarers and 270 land-office employees
- TORM plc is listed on Nasdaq Copenhagen

Global footprint with presence in all major segments

TORM AIMS TO BE REGARDED AS THE REFERENCE COMPANY IN THE PRODUCT TANKER SEGMENT

Pure-play product tanker owner

Active in all large segments to meet customer demands

~80 owned product tankers

Primarily spot-oriented

Limited T/C-in (off-balance sheet) commitments

Moderate debt levels with attractive debt profile

Financial strength to pursue growth

Strong balance sheet gives a competitive advantage when pursuing vessel acquisitions from lenders and yards

Semi-annual distribution policy of 25 to 50% of net income (after fixed payment of USD 25m in September 2016)

Strong capital structure

One TORM – Superior integrated operating platform

In-house technical and commercial management (preferred by customers)

Enhanced responsiveness to customers and higher TCEs

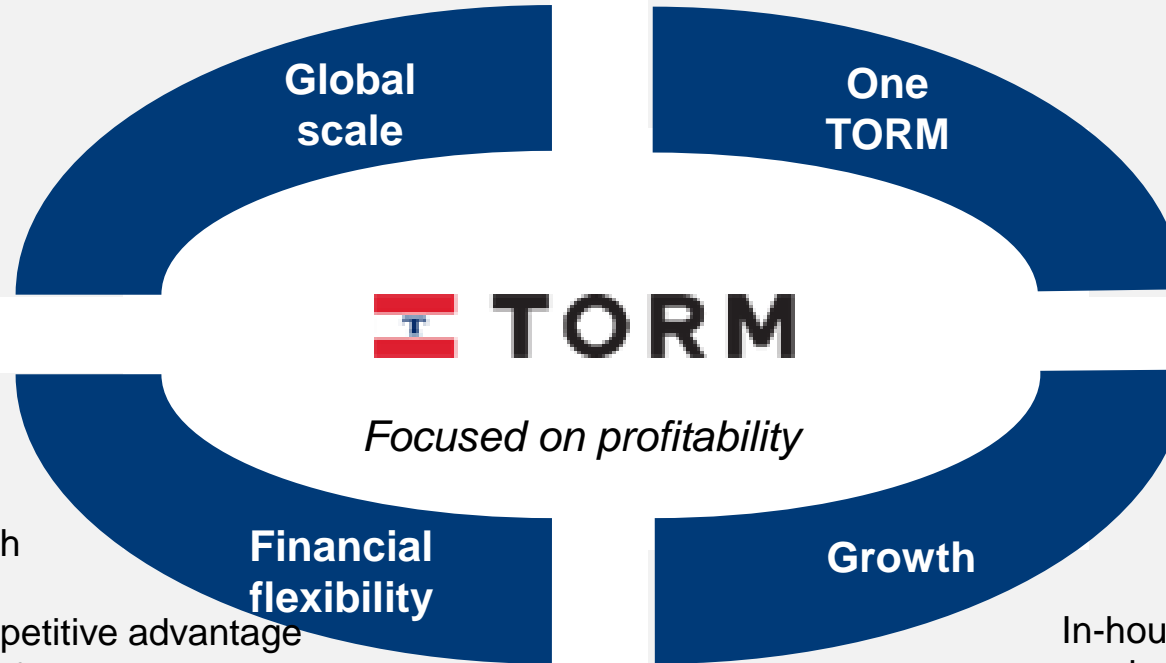

Cost-efficient without leakages

May serve as consolidator

Selective growth based on projected financial returns

In-house S&P team with relationships with brokers, yards, banks and shipowners

Selective fleet growth

PEER COMPARISON SHOWS THAT TORM HAS CONTINUED TO PERFORM COMMERCIALY DESPITE AN OLDER FLEET

USD/day

Notes:

- Peer group is based on Ardmore (split by ECO and ECO-modified), d'Amico (composite of MR and Handy), Frontline 2012, BW, Norden, Teekay Tankers and Scorpio, OSG
- BW reporting include for Q1 and Q2 2015 (based on prospectus in 2015)

1 Fully integrated and transparent business model

2 Complex and volatile shipping niche with attractive fundamentals

3 Interesting key metrics

PRODUCT TANKERS HAVE COATED TANKS AND HAVE SPECIALLY DESIGNED CARGO SYSTEMS WITH FLEXIBILITY TO TRANSPORT A WIDE RANGE OF DIFFERENT PRODUCTS

Oil product supply chain

Exploration

Transportation

Storage/distribution

Typical refined oil products carried on TORM's vessels

PRODUCT TANKER MAIN TRADE ROUTES

SOLID LONG-TERM FUNDAMENTALS FOR PRODUCT TANKERS

REFINERY NET EXPANSIONS AND OIL DEMAND GROWTH 2014-2021

Increasing Oil Demand

- IEA forecasts future global oil demand to be above the long-term average of just below 1 mb/d
- US gasoline demand grew by 1.9% y-o-y in Q2 to the highest level for Q2 since 2007

Refinery Dislocation

- Over the longer term, refinery rationalization will continue in Europe and the Pacific, while more capacity will be added in Asia and the Middle East supporting long-haul trade

Vessel order book

- Current product tanker ordering is low, standing at 15% of the total fleet - a decrease of 5% from the start of the year
- Limited available financing and restructuring in the Korean yard industry is also factors limiting new orders
